

EIT Manufacturing Web Portal phase *Background*

An updated website – what for?

- Current version was made for the start-up phase of EIT Manufacturing
- Now we need a site for impact:
 - ... focusing on who we target user experience, user needs
 - ... with dynamic visuals, people
 - ...tailored for expansion
- One web portal but with four sub web-portals tailored to the needs and audiences of each pillar (business creation, education, innovation, RIS) & one main 'institutional' page for EIT Manufacturing

The website is our virtual business card, a node for all our communication

INDICATIVE PROJECT TIMELINE

Jan/Feb - Mars (6 to 8 weeks)

Feb - April (6 to 12 weeks)

March – April (4 – 8 Week)

April - May (4 – 6 weeks)

End May/early June
