

# EIT Manufacturing: Business Creation Pillar

## Overview

Business Creation brings together the key players in the manufacturing ecosystem (startups, scaleups, SMEs, investors, policymakers and corporate industrials).

We provide startups, scaleups and SMEs with business development services, access to finance and support for transformation. We also provide corporate industrials with Industry 4.0 strategic trends analysis, open innovation services, and co-investment opportunities.

Visit [our website](#) to learn more!

*“EIT Manufacturing is a great place to receive valuable feedback for innovations that are targeting producing companies. Their large network, with introductions to potential clients, is the icing on the cake.”*

*Martin Pultz, CEO, Oculavis GmbH*

Co-funded by the European Union

## Business Creation Programmes

### Switch On

*For problem-solving startups that want to start shining*

### Supercharge

*For scaleups that want to accelerate their business*

### Level Up

*For SMEs that that want to transform their business & take operations to the next level*

*Seeks to build “bridges” for startup technologies to be implemented in addressing the industrial challenges of our corporate partners*
