

## CHALLENGE AND SOLUTIONS

Develop a course about AI and Manufacturing with real projects and business cases. This course should be accessible for students and people working in SME's and be made in a way attendees can choose to follow nuggets (specific knowledge they lack), learning paths or the complete course.

*“ Thanks to EIT we were able to develop this course, promote it and make it easy accessible! ”*

### TIMING AND MILESTONES

- Milestone 1: Market Analysis – M3 2021
- Milestone 2: Course outline available – M4 2021
- Milestone 3: Feed back local pilots – M6 2021
- Milestone 4: Final program – M12 2021
- Future goal: up to 600 participants in 2022 and 2023

### MAIN PROJECT RESULTS

- Market feasibility study report

- Report on Course structure and syllabus

- Report on nuggets implemented in learning platform

- Completed course
