PROJECT END

CHALLENGE

- Lack of trained staff on Additive Manufacturing (AM)
- Lack of knowledge about Innovation & Design for AM in the manufacturing & luxury sectors

SOLUTION

- Fostering AM use
- Increasing the awareness of companies
- Sharing knowledge, experience and technical practices

BENEFITS

- Trained professionals on the techniques of AM, including Design
- Awareness of companies on the possibilities of AM
- Contributing to a more creative, flexible and smart AM

MAIN PROJECT RESULTS

50

NUGGETS ON CREATIVE, FLEXIBLE AND SMART AM

2

3-DAY « JOURNEYS » TO EXPLORE THE POTENTIAL OF AM

80

PROFESSIONALS AND PHD STUDENTS TRAINED IN AM

“ Thanks to EIT we were able to spread knowledge on the possibilities of Additive Manufacturing to create innovative products ”

FREDERIC SEGONDS : Activity Leader CAPTure aNd foStEr additive manufacturing knowlEdge for luxury industry

AIM: Training professionals willing to enhance their expertise in the use of Additive Manufacturing.
