

- PROJECT START
- Jan. 2021
- 249.365€ EIT Funding
- Programme refined
- May 2021
- Pilots launched
- Aug. 2021
- Business plan
- Sep. 2021
- External pilots
- Nov. 2021
- Launch to market
- 2022

CHALLENGE

- Missing link between industry and academia
- High value equipment in RTO facilities is under-utilised
- Specialised know-how sharing

SOLUTION

- Network linking industry and academia
- Method to work together
- Multiple modalities:
 - ✓ Collaborative remote teaching
 - ✓ Industrial challenge solving
 - ✓ Training and upskilling

BENEFITS

- Exploit expertise and share knowledge
- Share high-value infrastructure
- Closer matching skill needs
- Lift access barriers
- Multi-nation and multi-cultural communication

MAIN PROJECT RESULTS

10 PILOT ACTIVITIES

11 ORGANISATIONS
3 INDUSTRIES
3 EXTERNAL COMPANIES
5 UNIVERSITIES

150+ TRAINEES
FROM 6 COUNTRIES

“ Thanks to EIT we were able to create a knowledge exchange network, directly benefitting more than 150 trainees and expecting to expand even more in the following years ”

PROF. PANOS STAVROPOULOS

Project Manager at LMS

MAIN PRODUCT

TF KnowNet network

AIM: Enabling high-value knowledge exchange between industrial and academic actors all over Europe
