EIT Manufacturing and ABC Research
invite you to the first
"Blockchain in Industry 4.0 for Professionals"
Online Seminar and Classroom Training.

The training focuses on the technological as well as the business aspects of Blockchain in Industry 4.0 and the Internet of Things. The application and implementation of Blockchain technology in those fields is at the center of the programme. Created to be open and flexible, it is intended for managers with a few years of experience in their industry, particularly those working in Management, Innovation, or as Project or Line Managers.

Join this unique opportunity!

About EIT Manufacturing and ABC Research

ABC RESEARCH

Austrian Blockchain Center

ABC Research is an interdisciplinary research organisation focused on Blockchain and related technologies based in Vienna, Austria.

The Center's mission is to be the one-stop-shop Austrian Research Center for Blockchain (and related) technologies to be applied in industrial applications like industry 4.0 / IoT as well as financial, energy, logistics, government and administrative applications. Those new applications and business models resulting from collaborations between established players, innovative start-ups and top R&D institutes will be the key for the creation of new jobs in Europe.

Manufacturing

Co-funded by the
European Union

EIT Manufacturing is a Knowledge and Innovation Community supported by the European Institute of Innovation and Technology (EIT), a body of the European Union. EIT Manufacturing is driven by its vision: that global manufacturing will continue to be led by Europe, and contributing to making Europe and its manufacturing sector more competitive and sustainable.

EIT Manufacturing brings together a growing network of top-tier industrial partners, leading academic and research institutions, innovative start-ups, scale-ups and SMEs from all across Europe.

A key way of transforming knowledge into value is by overcoming the fragmented nature of many innovation networks. In order to ensure that innovations reach the market, industry has the right talent and entrepreneurs can thrive; EIT Manufacturing connects and integrates the areas of education, innovation and business creation.
