7. **Contract** .......................................................................................................................... 6
8. **Cancellation of the proposal procedure** ........................................................................ 6
1. **Context**

   EIT Manufacturing (KIC) is focused on promoting entrepreneurship, innovation, and education in the domain of Manufacturing. EIT Manufacturing brings together leading organisations along the entire value chain from smaller companies to larger industry, excellent academic and research institutions, as well as public sector organisations, to promote the transformation of manufacturing towards the digital economy, towards the circular economy and the decarbonization of industry, by removing barriers to innovation, promoting talent and education, leveraging enabling technologies and exploiting big-data.

   Among Europe it exists 8 other KICs with the one we can participate to lead the action and create services across Europe and improve the competitiveness of European companies. EIT Manufacturing funds projects to verify and commercialise new ideas, technology, and innovation. To support the idea generation and connections in the manufacturing ecosystem, we are looking for a software that can be incorporated into our open innovation platform AGORA.

2. **Description**

   EIT Manufacturing, in cooperation with its partners and network of contributors, is taking initiative by postulating the “European Manufacturing System”, as a strategic objective for the European manufacturing industry, with universal implications. The European Manufacturing System provides a roadmap to the vision of autonomous, self-organized production and logistics. Supported by the European data infrastructure Gaia-Xs, it is a foundation for future-oriented business philosophy that becomes reality in the traditional manufacturing industry impacting the workforce and society at large.

   With the help of the design agency and the group of experts we could like to deep-dive the European Manufacturing System. Following are the steps envisaged:

   - Conduct meeting with EITM Core Group and Check-in Sessions
   - Conduct facilitated workshops with a team of EITM employees
   - Perform Scanning & Research with the design agency
   - Conduct Interviews with 15-20 manufacturing experts nominated by EITM
   - Translate the interviews into vision writing with the agency
   - Use Visuals & Design Work to disseminate the results to the community
3. Deliverables

- A position paper
- The results of the paper are communicated in a website. That could either be the updated website that has already in place with fixing our future project or a new website
- Customer support and
- Relevant privacy policies in compliance with GDPR.

4. Evaluation Criteria and Award Notification

Timely received proposals submitted by the tenderers will be examined, evaluated, and compared in accordance with the following criteria and the contract shall be awarded to the highest ranked tenderer. The decision will be made according to the “Best Value for Money” principle.

a. Price (30%)
b. Availability of staff (10%)
c. Functionality of the proposed solution (50%)
d. Time schedule (10%)

An Evaluation Committee of 3 people will be established. Each bid will be evaluated and ranked according to the criteria above.

The compliance with the principles of transparency, non-discrimination, equal treatment, and absence of conflict of interest will be ensured.

The successful and unsuccessful tenderers will be informed in writing (via email) about the result of the award procedure. In case the winning tenderer is unable to enter the contract, EIT Manufacturing may decide to contract the supplier receiving the second highest ranking.

Proposals must be submitted by e-mail within 7 days of the date of notification of the request for proposal. All proposals received after the deadline will be rejected.

In duly justified cases, however, no later than 1 calendar day before the original deadline, the submission deadline can be extended.

Upon request from the tenderer concerned, EIT Manufacturing will as quickly as possible, and in any event within 15 calendar days from receipt of a written request, inform:

- any unsuccessful candidate of the reasons for the rejection of its request to participate,
- any unsuccessful tenderer of the reasons for the rejection of its tender, including, if this is the case, its decision that the works, supplies or services do not meet the performance or functional requirements,
- any tenderer that has made an admissible tender of the characteristics and relative advantages of the tender selected as well as the name of the successful tenderer or the parties to the
awarded contract,

- any tenderer that has made an admissible tender of the conduct and progress of negotiations and dialogue with tenderers.

Information referred to above may be withheld where the release of such information would be contrary to the public interest, would prejudice the legitimate commercial interests of an economic operator, or might prejudice fair competition between economic operators.

Should there be a suspicion that the provider will not be able to perform according to the price offered, EIT Manufacturing has the right to ask for explanations and may reject the tender where the evidence supplied does not satisfactorily account for the low level of price or cost proposed.

5. Timeline

The indicative timeline for the call for proposals is as follows:

<table>
<thead>
<tr>
<th>Activity</th>
<th>Responsible</th>
<th>Date</th>
</tr>
</thead>
<tbody>
<tr>
<td>RFP opening</td>
<td>EIT Manufacturing</td>
<td>02/09/2022</td>
</tr>
<tr>
<td>Offer submission</td>
<td>Supplier</td>
<td>15/09/2022</td>
</tr>
<tr>
<td>Evaluation and notification of award</td>
<td>EIT Manufacturing</td>
<td>Mid-September latest 21/09</td>
</tr>
<tr>
<td>Contract signature</td>
<td>EIT Manufacturing &amp; selected supplier</td>
<td>27 September 2022</td>
</tr>
<tr>
<td>Project start (Kick off meeting)</td>
<td>EIT Manufacturing &amp; selected supplier</td>
<td>4 October 2022</td>
</tr>
</tbody>
</table>
6. Complaint procedure

Tenderers believing that they have been harmed by an error or irregularity during the award process may file a complaint. Appeals shall be addressed to EIT Manufacturing only via the following email address innovation@eitmanufacturing.eu. The tenderers have five days to file their complaints from the date of receipt of notification of the results.

In your application to EIT Manufacturing the complainant shall explain what procedural aspects they consider having been violated along with any recommendations or remarks. Such claims need to be supported with data and facts and relevant documentation. An appeal whose sole purpose is to obtain a second evaluation for no reason other than that the complainant disagrees with the final award decision is to be rejected.

7. Negotiations & Clarifications

Negotiations can be held in the following cases:

- if it is identified that the scope of services issued by EIT Manufacturing is not detailed enough, incomplete or some areas are lacking crucial information to complete the procedure for direct awards;
- if EIT Manufacturing has the intention to reduce the offered prices to find the best value for money;
- if all submitted prices are above the planned budget and it is everyone’s interest to finish the procedure with success – in that case, price negotiation can take place. During a price negotiation, all tenderers are called to lower their prices by the same deadline in a written form;

EIT Manufacturing can organize as many rounds of negotiation as it is needed during the procedure in order to reach the highest quality of proposals and the best price. Whenever possible, the negotiations should be carried out in writing, however, in special cases, video conference or even live negotiation can be organized. EIT Manufacturing also reserves the right to invite the tenderers to an individual meeting before the final award of contract in order to clarify details and ambiguities. In case of obvious or perceived errors or omissions in the RfP, Tenderers can request additional information or clarifications by the deadline provided in the above timeframe through email at innovation@eitmanufacturing.eu.

Upon receipt of the bids, they will be reviewed, and additional details will be requested from the tenderers as needed. The requests as well as the answers are to be submitted written by e-mail. Where information or documentation to be submitted by tenderers is incomplete or erroneous or where specific documents are missing, EIT Manufacturing staff may request the party concerned to submit, supplement, clarify or complete the relevant information or documentation within X days. Bid preparation costs are not reimbursable and must be borne by the tenderers.

EIT Manufacturing owns all bids received in this RFP. Proprietary information of vendors in the bids will be kept strictly confidential. The offers as well as the contract may be submitted for audits.
8. **Contract**

The final award does not yet constitute the Contract. The winning supplier will be sent the contract to be signed (indicating the deadline by which the signed contract should be returned to EIT Manufacturing).

The invoicing will be based on a mutually agreed schedule; it will be detailed in the contract. The contract that will be awarded will have a maximum duration of 3 months with effective 1 October 2022. The tenderer agrees that the total value of the contract to be signed with EIT Manufacturing for 3 months will in no way exceed the bid (the amount contained in the offer) of the tenderer.

The awarded supplier will be requested to sign Standard Contractual Clauses (SCC) if no other GDPR compliant safeguards exist, and the supplier is located in a country for which the EU commission has not issued an adequacy decision.

9. **Cancellation of the proposal procedure**

In the event of cancellation of the proposal procedure, EIT Manufacturing will notify tenderers of the cancellation. In no event shall EIT Manufacturing be liable for any damages whatsoever including, without limitation, damages for loss of profits, in any way connected with the cancellation of a proposal procedure, even if EIT Manufacturing has been advised of the possibility of damages.

The tenderer shall take all measures to prevent any situation where the impartial and objective implementation of the contract is compromised for reasons involving economic interest, political or national affinity, family or emotional ties or any other shared interest (‘conflict of interests’). S/he should inform the EIT Manufacturing team immediately if there is any change in the above circumstances at any stage during the implementation of the tasks.

The supplier cannot be a EIT Manufacturing Partner or Activity Partner. Any bid from such an economic operator will be rejected.

Tenderers will be excluded if:

- a) they are being wound up, are having their affairs administered by the courts, have entered into an arrangement with creditors, have suspended business activities, are the subject of proceedings concerning those matters, or are in any analogous situation arising from a similar procedure provided for in national legislation or regulations; they have been convicted of an offence concerning their professional conduct by a judgment which has the force of res judicata;
- b) they have been guilty of grave professional misconduct proven by any means which the EIT Manufacturing can justify;
- c) they have not fulfilled obligations relating to the payment of social security contributions or the payment of taxes in accordance with the legal provisions of the country in which they are established or any other country of the EU;
- d) they have been the subject of a judgment which has the force of res judicata for fraud, corruption, involvement in a criminal organization or any other illegal activity detrimental to the EU’ financial interests;
e) following a procurement procedure or grant award procedure financed by the EU budget, they have been declared in serious breach of contract for failure to comply with their contractual obligations.

The tenderers must not be in a situation of a conflict of interest, and they have sufficient economic and financial capacity, technical and professional capacity and legal and regulatory capacity to perform the requested services. A declaration of honour regarding the above shall be signed by the tenderer. Additional evidence or declarations might be requested by the contracting authority.

EIT Manufacturing reserves the right to suspend or cancel the procedure, where the award procedure proves to have been subject to substantial errors, irregularities, conflict of interest or fraud. If substantial errors, irregularities, conflict of interest or fraud are discovered after the award of the Contract, EIT Manufacturing may refrain from concluding the Contract.
