

PROBLEM/ISSUE ADDRESSED

- Missing link between industry and academia
- High value equipment in RTO facilities is under-utilised
- Specialised know-how sharing is missing
- Challenge-based industrial training is limited

SOLUTION

- Network linking industry and academia
- Method to work together
- Multiple modalities:
 - ✓ Collaborative remote teaching
 - ✓ Industrial challenge solving
 - ✓ Training and upskilling

WHY IT IS IMPORTANT FOR SOCIETY

- Exploit expertise and share knowledge
- Share high-value infrastructure
- Closer matching skill needs
- Lift access barriers
- Multi-nation and multi-cultural communication

“ Thanks to EIT we were able to create a knowledge exchange network, directly benefitting more than 250 trainees, facilitating 10 industrial challenges and expecting to expand even more in the following years ”

MAIN RESULTS & INSIGHTS

- 
 - 10 Pilot Activities
- 
 - 13 Organisations, including 4 external companies
- 
 - 250+ trainees from 14 countries

PROF. PANOS STAVROPOULOS

Project Manager at LMS

MAIN PRODUCT

TF KnowNet network

AIM: Enabling high-value knowledge exchange between industrial and academic actors all over Europe
