

PROBLEM/ISSUE ADDRESSED

Skill gaps and talent shortages affecting European manufacturing

SOLUTION

The YML Network of students and young professionals aims at:

- Spreading awareness of digital, sustainable and inclusive manufacturing
- Developing skills needed for the future of manufacturing
- Connecting young people with key players and opportunities
- Empowering students and young professionals to be change makers

WHY IT IS IMPORTANT FOR SOCIETY

European society will experience positive effects in terms of enhanced human capital, a more innovative, sustainable and inclusive industrial base, and economic growth.

YML aims at contributing to the achievement of 4 Sustainable Development Goals

“ ...thanks to EIT we were able to create a global community of promising leaders of future manufacturing ”

MAIN RESULTS & INSIGHTS

- 500 members
- 8 City Hubs in the Network

- 1 Learning Path on Creativity, Innovation and Entrepreneurship
- 1 Learning Path on Equality, Diversity and Inclusion

- 2 International Contests
- 1 YML Main Event

MARTA PINZONE

Assist. Prof. at Politecnico di Milano

MAIN PRODUCT

YML Network

AIM: creating an international network of students and young professionals in manufacturing
