

EIT Manufacturing

Eligibility and Admissibility checks
– CfP 2024-1

Co-funded by the
European Union

eitmanufacturing.eu

Key dates of the Call

Call deadline: 19th June at 17.00 CEST

Admissibility and eligibility check: by June 21st

- Eligible proposals will be shared with the External Evaluators to start the evaluation phase
- Proposals containing one or more ineligible elements will receive an official communication from EIT Manufacturing setting out the outcome of the eligibility check and explaining why the proposal failed to meet the criteria.

Remote evaluation and consensus meeting of External Experts: by July 20th

Results communicated by email to all Activity Leaders of the proposals with the final scoring and conditions: by August 1st

General admissibility criteria

The admissibility checks are indicated in the call guidelines in the section 5.1. The checks are conducted by EIT Manufacturing based on the information submitted in the proposals

Applications must be

- submitted before the call deadline (see Call Summary).
- submitted in English
- submitted electronically via the submission tool. Paper submissions are NOT possible.
- complete and contain all the mandatory information in the online application form and all mandatory documentation

Innovation – Eligibility criteria

Innovation eligibility criteria

The eligibility checks are indicated in the call guidelines in the section 5.2

Consortia shall be composed by at least 3 legal entities independent from each other and each established in a different country as follows:

- at least 1 independent legal entity established in a Member State; and
- at least 2 other independent legal entities, each established in different Member States or Associated Countries.

Consortia must include entities geographically based in at least, two different EIT Manufacturing CLCs

Consortia shall include the following roles

- 1 Lead Partner. The organisation in charge of coordinating the consortium through the Activity Leader. The role of Activity Leader is open to any entity participating to the call for proposals.
- 2 different End-Users. The end-users must be consumers of the solution(s) and each of them must provide at least 1 use case, testing and implementing the result(s) in their real industrial environment. The role of End-user is open to any entity participating to the call for proposals.
- 1 Business Owner. The organisation in charge of the commercialisation of the result(s). The role of Business Owner is limited only to organization with a legal entity established in a Member State or Country associated to Horizon Europe at the time of submission of the application

The checks are conducted by EIT Manufacturing based on the information submitted in the proposals

To ensure the proper assessment of the eligibility criteria, make sure you described the role of all participants in the proposal. Please consider that “dummy” partner registration on the Plaza application tool will be disregarded.

Thank you!
