

Request for Proposal (RfP)

RfP for the Design and Development of
the EIT Manufacturing Results Platform
January 2025

Deadline for offer submission 10 February 2025

1. Context

About EIT Manufacturing: EIT Manufacturing (KIC) is focused on promoting entrepreneurship, innovation, and education in the domain of Manufacturing. EIT Manufacturing brings together leading organizations along the entire value chain from smaller companies to larger industry, excellent academic and research institutions, as well as public sector organizations, to promote the transformation of manufacturing towards the digital economy, towards the circular economy and the decarbonization of industry, by removing barriers to innovation, promoting talent and education, leveraging enabling technologies and exploiting big data.

The Need for the Results Platform: Since 2020, EIT Manufacturing has supported numerous pan-European consortia in developing groundbreaking technologies. These initiatives have resulted in innovative, commercially-ready solutions that are critical to the future of manufacturing. The Results Platform is envisioned as a digital catalog to showcase these innovations, enhancing visibility and enabling effective matchmaking between technology providers and seekers. By facilitating connections with potential customers and partners, the platform will serve as a cornerstone of our mission to drive the adoption and commercialization of manufacturing innovations.

EIT Manufacturing is an association under the law 1901 created in 2019. Along with the EIT Manufacturing there are 8 (eight) other KICs with the aim to lead the action and create services across Europe, improving the competitiveness of European companies.

2. Service Description

EIT Manufacturing (EITM) is looking for qualified subcontractors to design, develop, and launch the Results Platform—a digital catalog of innovative, commercially-ready products. The platform will enable users to search, filter, and navigate solutions based on their sector and application, ultimately fostering technology adoption and collaboration across Europe's manufacturing ecosystem.

The platform can either be integrated into our main corporate website (<https://www.eitmanufacturing.eu/>) or developed externally.

Objectives

The Results Platform aims to:

1. Serve as a centralized digital repository showcasing innovative, market-ready solutions developed through EIT Manufacturing-funded projects. Each solution should be presented with detailed information, including titles, descriptions, images/videos, and relevant use cases.
2. Provide users with advanced search and filter functionalities to easily find solutions tailored to their industry, sector, and application needs, ensuring efficient navigation and discovery.
3. Include a dedicated contact form for each solution, enabling interested users to inquire about specific innovations. These inquiries will be reviewed and managed to ensure meaningful connections between technology providers and seekers.
4. Enhance the visibility of EIT Manufacturing-supported innovations, demonstrating their market impact and relevance in addressing manufacturing challenges.

Note: EIT Manufacturing will be solely responsible for providing all content, including solution descriptions, images, videos, and other relevant materials. The subcontractor's role is limited to the technical design and development of the platform and its functionalities.

A successful proposal will demonstrate a clear understanding of EIT Manufacturing's goals, a robust technical approach to achieving them, and the capacity to deliver a high-quality, scalable, and maintainable platform.

Scope of Work

The subcontractor will be responsible for:

1. Platform Design and Development:
 - Create a responsive and user-friendly digital catalog for innovative solutions integrated with the EIT Manufacturing website or as an independent platform accessible via a dedicated URL. The platform can either be integrated into our main corporate website (<https://www.eitmanufacturing.eu/>) or developed externally. There is no preference for one option over the other. However, for integrated platforms, note that our corporate website is built using WordPress with a custom-built theme. Pages are constructed using custom Gutenberg blocks created with Advanced Custom Fields PRO.
 - Develop solution cards with dynamic content (e.g., titles, descriptions, images, and videos).
 - Implement advanced search and filter functionalities, including for AI-powered "smart search" capabilities.
 - Enable multiple levels of access to information (e.g., public and restricted) to

accommodate varying user permissions and data sensitivity.

2. Content Management System (CMS):
 - Develop an admin panel for uploading, managing, and editing catalog entries.
 - Provide training to EIT Manufacturing staff for ongoing content management.
3. Testing and Deployment:
 - Conduct thorough testing for functionality, usability, and security.
 - Deploy the platform and ensure seamless integration with EIT Manufacturing's website or prepare it for standalone operation.
4. Launch Support:
 - Provide technical support and troubleshooting during the launch and piloting phase (first three months after the platform launch) to address any issues promptly and ensure smooth operation.
5. Maintenance:
 - Support to ensure the continued functionality, security, and performance of the platform. The supplier should specify the service levels they intend to deliver, including response times, issue resolution times, and availability of support staff, ensuring clear definitions of service commitments. Provide a quotation for an annual maintenance contract to cover these services.

3. Deliverables

The selected supplier shall deliver the following deliverables:

1. Preliminary Design Mockup: A preliminary design mockup or draft version of the platform, including wireframes or prototypes, to provide an early visual and functional representation. This will allow for feedback and alignment before final development.
2. Admin Panel and Documentation: Comprehensive documentation for the CMS and training materials.
3. Platform Launch Documentation: A detailed report or documentation outlining the fully launched platform, including access credentials, technical specifications, and user manuals to verify that the platform is operational and meets all requirements.

The Results Platform is expected to be launched by the end of March 2025. A first batch of results will be imported during the second half of March while more content will be included later during the year.

Proposal Requirements:

Interested vendors should include the following information in their proposals:

- Company Information: company name, address, and contact information.
- Brief history and overview of the company: relevant experience in the field of services.
- Technical Proposal: detailed methodology, project plan and timeline.
- Cost Proposal: detailed cost breakdown.
- Risk management strategy: plan for risk management.
- Team Qualifications: names and qualifications of key personnel involved in the project.
- Relevant Experience: Include case studies or examples of similar work.
- Payment terms and conditions.
- Professional References.

4. Budget

The maximum budget for the requested services is EUR 25.000, with no binding obligation to purchase for the maximum amount.

5. Timeline

The deadline to submit the offer was **extended** until **10/02/2025** and the awarded tenderer shall provide the services as described earlier until the expiration date of the contract.

The indicative timeline for the call for proposals is as follows:

Activity	Responsible	Date
RFP opening	EIT Manufacturing	15/01/2025
Offer submission	Supplier	03/02/2025
Extended Deadline for Offer Submission	Supplier	10/02/2025
Evaluation and notification of award	EIT Manufacturing	14/02/2025
End of Standstill Period	Deadline to submit appeals or complaints	17/02/2025
Contract signature	EIT Manufacturing & selected supplier	21/02/2025

All offers shall be submitted within the above-mentioned deadline to the following link: <https://eit-manufacturing.prioritize.linksquares.com/new-task?token=eqfghK7TdyC03ZdVaPfVqgS5gx2LiEf2ImaueYxnGfUzCJhpKHMnJUwW1oN-KF7i>. To start your application, please follow the outlined “step-by-step”:

1. Click on the link above and fill out the Task Name with this description: “Design and Development of the EIT Manufacturing Results Platform”.
2. Fill out the Requestor Name with your name.
3. Fill out the Requestor E-mail with your e-mail address.
4. Leave the following fields blank since they are not mandatory: Task type, Deadline and Priority.
5. Fill in the field "Describe Task" with the message you wish to convey to our team and/or any details and comments you have regarding your proposal. If you have none, simply write “RfP for Design and Development of the EIT Manufacturing Results Platform”.
6. Click on attachments and upload your Commercial Proposal as an attachment.
7. After completing the above-mentioned information, click on “Submit Task” to finalize your application. Please note that you will not receive any confirmation in your e-mail. However, you should ensure that this message appears to you on the screen after submitting your proposal: “Task created successfully”.

If you have any questions, please contact us at the following email address: procurement@eitmanufacturing.eu

Disclaimer of Liability for Technical Failures:

EIT Manufacturing shall not be held liable for any technical failures, interruptions, or glitches occurring in its digital tool designated for receiving proposals in the Request for Proposals (RfP) as mentioned in the link above, irrespective of the underlying reasons. EIT Manufacturing assumes no responsibility for any loss or damage resulting from such technical issues.

Verification of Proposal Receipt:

In case of any doubt or uncertainty regarding the submission status, the supplier is obligated to take appropriate measures to confirm the receipt of their proposal, utilizing the communication channels and tools made available by EIT Manufacturing for such verification. It is the sole responsibility of the supplier to verify the successful submission and receipt of their proposal through the available means provided by EIT Manufacturing. By participating in the proposal submission process, the supplier acknowledges and accepts that EIT Manufacturing disclaims any liability related to technical failures affecting the digital tool and that the supplier is accountable for ensuring the successful transmission and receipt of their proposal.

6. Evaluation Criteria and Award Notification

Timely received proposals submitted by the tenderers will be examined, evaluated, and compared in accordance with the following criteria and the contract shall be awarded to the highest ranked tenderer. The decision will be made according to the “Best Value for Money” principle. The award criteria will be the following:

- a) Price (hourly rate and/or overall price) (20%)
- b) Prior experience in similar tasks and team qualifications (35%)
- c) Quality and clarity of the technical proposal (35%)

- d) Good knowledge on the activities of the European Institute of Innovation & Technology (EIT) and of EIT Manufacturing (10%)

An Evaluation Committee of 3 people will be established. Each bid will be evaluated and ranked according to the criteria above.

The compliance with the principles of transparency, non-discrimination, equal treatment, and absence of conflict of interest will be ensured.

The successful and unsuccessful tenderers will be informed in writing (via email) about the result of the award procedure. In case the winning tenderer is unable to enter the contract, EIT Manufacturing may decide to contract the supplier receiving the second highest ranking.

Upon request from the tenderer concerned, EIT Manufacturing will as quickly as possible, and in any event within 15 calendar days from receipt of a written request, inform:

- any unsuccessful candidate of the reasons for the rejection of its request to participate,
- any unsuccessful tenderer of the reasons for the rejection of its tender, including, if this is the case, its decision that the works, supplies or services do not meet the performance or functional requirements,
- any tenderer that has made an admissible tender of the characteristics and relative advantages of the tender selected as well as the name of the successful tenderer or the parties to the awarded contract,
- any tenderer that has made an admissible tender of the conduct and progress of negotiations and dialogue with tenderers.

Information referred to above may be withheld where the release of such information would be contrary to the public interest, would prejudice the legitimate commercial interests of an economic operator, or might prejudice fair competition between economic operators.

Should there be a suspicion that the provider will not be able to perform according to the price offered, EIT Manufacturing has the right to ask for explanations and may reject the tender where the evidence supplied does not satisfactorily account for the low level of price or cost proposed.

Complementary Note on the Evaluation Process:

After the initial evaluation of submitted proposals, it is possible that the potential top-ranked suppliers may be shortlisted for participation in a Pitch Session or in a set of interviews. It is important to emphasize that the evaluation will be conducted in strict accordance with the criteria outlined in the published Request for Proposal (RfP).

The primary objective of the Pitch Session or Interviews is to facilitate a deeper understanding of the received proposals, provide an opportunity to elaborate on specific details, and allow the EIT Manufacturing to get to know the team of professionals better. During this session, the shortlisted suppliers will have the chance to present their proposals, clarify any questions, and discuss how your firm can best meet the legal consulting needs of EIT Manufacturing.

Further details regarding the Pitch Session or Interviews, including dates and logistics, will be communicated to the shortlisted suppliers following the initial evaluation of proposals.

7. Complaint procedure

Tenderers believing that they have been harmed by an error or irregularity during the award process may file a complaint. Appeals shall be addressed to EIT Manufacturing only via the following email address procurement@eitmanufacturing.eu. The tenderers have 3 (three) days to file their complaints from the date of receipt of notification of the results.

In your application to EIT Manufacturing the complainant shall explain what procedural aspects they consider having been violated along with any recommendations or remarks. Such charges need to be supported with data and facts and, if possible, – documentation. An appeal whose sole purpose is to obtain a second evaluation for no reason other than that the complainant disagrees with the final award decision is to be rejected.

8. Negotiations & Clarifications

Negotiations can be held in the following cases:

- if it is identified that the scope of services issued by EIT Manufacturing is not detailed enough, incomplete or some areas are lacking crucial information to complete the procedure for direct awards;
- if EIT Manufacturing has the intention to reduce the offered prices to find the best value for money;
- if all submitted prices are above the planned budget and it is everyone's interest to finish the procedure with success – in that case, price negotiation can take place. During a price negotiation, all tenderers are called to lower their prices by the same deadline in a written form.

EIT Manufacturing can organize as many rounds of negotiation as it is needed during the procedure in order to reach the highest quality of proposals and the best price.

Whenever possible, the negotiations should be carried out in writing, however, in special cases, video conference or even live negotiation can be organized. EIT Manufacturing also reserves the right to invite the tenderers to an individual meeting before the final award of contract in order to clarify details and ambiguities.

In case of obvious or perceived errors or omissions in the RfP, Tenderers can request additional information or clarifications by the deadline provided in the above timeframe through email at procurement@eitmanufacturing.eu.

Upon receipt of the bids, they will be reviewed, and additional details will be requested from the tenderers as needed. The requests as well as the answers are to be submitted written by e-mail. Where information or documentation to be submitted by tenderers is incomplete or erroneous or where specific documents are missing, EIT Manufacturing staff may request the party concerned to submit, supplement, clarify or complete the relevant information or documentation within 3 day(s).

Bid preparation costs are not reimbursable and must be borne by the tenderers.

EIT Manufacturing owns all bids received in this RFP. Proprietary information of vendors in the bids will be kept strictly confidential. The offers as well as the contract may be submitted for audits.

9. Contract

The final award does not yet constitute the Contract. The Contract will be concluded at the time of signature by the Supplier and EIT Manufacturing. The winning supplier will be sent the contract to be signed (indicating the deadline by which the signed contract should be returned to EIT Manufacturing).

The invoicing will be based on a mutually agreed schedule; it will be detailed in the contract signed for each or both lots. The contract is estimated to be signed by February 2025 and will have a maximum duration [INSERT] (by project term).

The tenderer agrees that the total value of the contract to be signed with EIT Manufacturing for the mentioned period will in no way exceed the bid (the amount contained in the offer) of the tenderer.

The awarded supplier will be requested to sign Standard Contractual Clauses (SCC) if no other GDPR compliant safeguards exist, and the supplier is located in a country for which the EU commission has not issued an adequacy decision.

10. Confidentiality Obligation

All information, whether written or oral, exchanged between the parties involved in this Request for Proposals (RfP) process, hereinafter referred to as the "Parties" shall be considered confidential and proprietary.

The Parties agree not to disclose, provide access to, or otherwise make available any confidential information to any third parties, including but not limited to individuals, companies, or organizations, who are not directly involved in the RfP process, without the express written consent of the disclosing Party.

"Confidential Information" shall encompass, without limitation, all data, documents, proposals, discussions, designs, specifications, financial information, technical data, trade secrets, and any other information disclosed by one Party to the other during the course of the RfP process.

The obligations of confidentiality shall not apply to information that is:

- a) Publicly available at the time of disclosure or subsequently becomes publicly available through no fault of the receiving Party.
- b) Already in the possession of the receiving Party prior to disclosure and not subject to an existing confidentiality obligation.
- c) Disclosed to the receiving Party by a third party with the legal right to do so without breaching any confidentiality obligations.

d) Required to be disclosed by law, court order, or governmental regulation, provided that the disclosing Party is promptly notified and given the opportunity to seek a protective order.

Any Party found in breach of this confidentiality clause shall be subject to legal measures, including but not limited to litigation, injunctive relief, and monetary damages, as deemed appropriate by the disclosing Party.

The obligations of confidentiality as set forth in this clause shall survive the termination or completion of the RfP process and shall remain in effect for a period of 5 (five) years, unless both Parties mutually agree in writing to terminate this confidentiality agreement.

This confidentiality clause shall be governed by and construed in accordance with the laws of France. Any legal action arising out of or in connection with this clause shall be subject to the exclusive jurisdiction of the courts of Paris, France.

11. Cancellation of the proposal procedure

In the event of cancellation of the proposal procedure, EIT Manufacturing will notify tenderers of the cancellation. In no event shall EIT Manufacturing be liable for any damages whatsoever including, without limitation, damages for loss of profits, in any way connected with the cancellation of a proposal procedure, even if EIT Manufacturing has been advised of the possibility of damages.

The tenderer shall take all measures to prevent any situation where the impartial and objective implementation of the contract is compromised for reasons involving economic interest, political or national affinity, family or emotional ties or any other shared interest ('conflict of interests'). The tenderer should inform the EIT Manufacturing team immediately if there is any change in the above circumstances at any stage during the implementation of the tasks.

The supplier cannot be a EIT Manufacturing Partner or Activity Partner. Any bid from such an economic operator will be rejected.

Tenderers will be excluded if:

- a) they are being wound up, are having their affairs administered by the courts, have entered into an arrangement with creditors, have suspended business activities, are the subject of proceedings concerning those matters, or are in any analogous situation arising from a similar procedure provided for in national legislation or regulations; they have been convicted of an offence concerning their professional conduct by a judgment which has the force of res judicata.
- b) they have been guilty of grave professional misconduct proven by any means which the EIT Manufacturing can justify.
- c) they have not fulfilled obligations relating to the payment of social security contributions or the payment of taxes in accordance with the legal provisions of the country in which they are established or any other country of the EU.
- d) they have been the subject of a judgment which has the force of res judicata for fraud, corruption, involvement in a criminal organization or any other illegal activity detrimental to the EU' financial interests.

- e) following a procurement procedure or grant award procedure financed by the EU budget, they have been declared in serious breach of contract for failure to comply with their contractual obligations.

The tenderers must not be in a situation of a conflict of interest, and they have sufficient economic and financial capacity, technical and professional capacity and legal and regulatory capacity to perform the requested services. Additional evidence or declarations might be requested by the contracting authority.

EIT Manufacturing reserves the right to suspend or cancel the procedure, where the award procedure proves to have been subject to substantial errors, irregularities, conflict of interest or fraud. If substantial errors, irregularities, conflict of interest or fraud are discovered after the award of the tender, EIT Manufacturing may refrain from concluding the Contract.

This RfP confers no entitlement or expectation for tenderers to enter into a contract with EIT Manufacturing. Consequently, EIT Manufacturing is not obliged to sign a contract with the chosen supplier, whether at present or in the future.

ANNEX I - Tenders Declaration of Honor

[Place and Date]

[Name of the Legal Entity and/or Signatory]

I, [Full name of the supplier's representative], hereby declare the following in connection with my application for the Request for Proposal (RfP) [title of the RfP]:

- a) I will commit to take all measures to prevent any situation where the impartial and objective implementation of the contract is compromised for reasons involving economic interest, political or national affinity, family or emotional ties or any other shared interest ('conflict of interests'). I will inform the EIT Manufacturing immediately if there is any change in the above circumstances at any stage during the implementation of the tasks.
- b) I accept that during the implementation of the contract and for five years after the completion of the contract, the supplier must keep confidential any data, documents or other material that is identified as confidential at the time it is disclosed ('confidential Information').
- c) I accept that during the implementation of the contract and for five years after the completion of the contract, the EIT Manufacturing has the right for the purposes of safeguarding its financial interests, the offer and the contract of the supplier may be transferred to internal as well as external audit services.
- d) I confirm that I or the entity represented by me is not currently experiencing any of the following situations. If any situation applies, details are provided in an annex to this declaration

along with a brief explanation.

- The entity is not bankrupt, subject to insolvency or winding up procedures, and its assets are not being administered by a liquidator or by a court. It is not in an arrangement with creditors, and its business activities are not suspended, nor is it in any analogous situation arising from a similar procedure under national legislation or regulations.
- There is no final judgement or final administrative decision establishing a breach of obligations related to the payment of taxes or social security contributions.
- There is no final judgement or final administrative decision establishing guilt of grave professional misconduct, including but not limited to fraud, violation of applicable laws or regulations, ethical standards, distorting competition, violating intellectual property rights, attempting to influence EU Bodies' decision-making processes, attempting to obtain confidential information, or any other wrongful conduct impacting professional credibility.
- There is no final judgement establishing guilt of fraud, corruption, participation in a criminal organization, money laundering or terrorist financing, terrorist-related offences, child labor, or other forms of trafficking in human beings.
- The entity has not shown significant deficiencies in complying with the main obligations in the performance of a contract, a grant agreement, or a grant decision financed by the European Union's budget, leading to early termination, application of liquidated damages, or other contractual penalties, discovered through checks, audits, or investigations.
- There is no final judgement or final administrative decision establishing that the entity has committed an irregularity within the meaning of Council Regulation (EC, Euratom) No 2988/95.
- There is no final judgement or final administrative decision establishing that the entity has created an entity in a different jurisdiction with the intent to circumvent fiscal, social, or any other legal obligations.
- In the absence of a final judgement or final administrative decision in the cases mentioned above, or in the case of point (d), I acknowledge that the Applicant may be subject to:
 - i. Facts established in the context of audits or investigations by EPPO, the Court of Auditors, OLAF, or the internal auditor, or any other check, audit, or control performed under the responsibility of the authorizing officer.
 - ii. Non-final administrative decisions, including disciplinary measures taken by the competent supervisory body responsible for the verification of the application of standards of professional ethics.
 - iii. Facts referred to in decisions of persons and entities implementing Union funds.
 - iv. Information transmitted in accordance with the Financial Regulation.
 - v. Decisions of the Commission or national competent authority relating to the infringement of Union or national competition law.

I hereby declare the accuracy and truthfulness of the above statements.

Yours faithfully,

[Signature of the Supplier's representative]
