

PROJECT START

300'000 € EIT Funding

6 Training courses on 4.0 technologies

2 Workshops deployed

Engagement webinars

Future goal
Deployment of training courses at competence centres

Future goal
Network increase

CHALLENGE

- Lack of technology knowledge in manufacturing SMEs
- Lack of glossary to describe needs and solutions
- Adoption of wrong or overfitting technologies

SOLUTION

- Network of universities and competence centres specialized in manufacturing technologies
- Courses to help SMEs orientating in the new technologies frameworks

BENEFITS

- SMEs mastering the proper glossary to describe their needs to their suppliers
- Creating awareness about the technical solution the market is able to provide

MAIN PROJECT RESULTS

12 UNIVERSITIES INVOLVED

2 COMPETENCE CENTRES / INDUSTRIAL ASSOCIATION INVOLVED

6 TRAINING COURSES DEVELOPED IN 2020

“ thanks to EIT we were able to create an academical network providing SMEs the technical knowledge they need to face the market ”

WALTER QUADRINI

Research Assistant at Politecnico di Milano
MAIN PRODUCT
LIFT Europe
AIM: providing manufacturing SMEs with training courses to spread “4.0” technology knowledge
